DOES THIS EXPLAIN
Much is made by opponents of the present national administration that from 1913 to the present date, the national administrations have spent a total amount of money equal to that spent from 1783 to 1913.

It occurs to me that the normal person will spend and handle as much money between the ages of 21 and 30 as that individual did between birth and the age of 21. When we were a child, as nations go, in the matter of years, we went as a child, but that the nation has grown, we should expect larger budgets.

MENACE TO LIBERTY

Organized labor in America is in the midst of a campaign to sell labor unions to every industry in the land. It goes beyond that. A drive is on to exert all the pressure possible to force workers to join a labor union. That includes the gunning of strikes, pickets, and walkouts, sit-downs, boycotts and all the harrowing devices of the labor organizer.

If there is anything in labor policy that rules as the wrong way, it is the CLOSED SHOP. It was born in folly and bred on the milk of ignorance. 123,456 7890, -mb-

To say that for a worker to be eligible to earn his bread and butter in industry, he MUST belong to a certain UNION, is so contrary to the fundamental tenets of democracy as to present a major menace to American liberty. To force a worker to JOIN anything from a labor union to the Luther, into a church to a ward political club, before he can follow his trade, is to rank it smells to high heaven. Much is made of the phase, Economic slavery. We'd rather face slavery to intelligent vested interest than pongage to a riff-raff of

"AMERICAN" PARTY CANDIDATES RE-NOMINATED BY A HUGE MAJORITY

JOIN THE "AMERICAN" PARTY

TWO CONVENTIONS are over. Two great parties have indicated their choice. But there's still another great party—the "American" Party. Its candidates—Amoco-Gas and Orange American Gas—have been overwhelmingly re-nominated by the million and more voting motorists who support the "American" Platform of Service and Savings.

They're re-nominated on a platform where the promise is always performed. Amoco-Gas was the original candidate in the special motor fuel field 21 years ago—has always been returned to office, and is again the people's choice. It costs a bit more by the gallon—but less by the mile.

On the "regular" ticket, there's Orange American Gas—the best buy at regular gas price. A 100% clean-burning regular gasoline with a pure petroleum base, Orange American Gas gets action with new action for its followers everywhere.

Already thousands and thousands of new voters are flocking to the "American" Party. Why not you? Join the "American" Party and vote at The Sign of Greater Values.
